- Data exchange shall be done in JSON format
- No errors nor logs in console
- Loading speed less than 4 seconds
- At least 2 browsers supported
- No commented code

Виконання

1. API-endpoint login

The image shows a login form titled "Login Form" in a light blue font. The form is centered on a light gray background. It contains two input fields: "Username" with the value "bohdan" and "Password" with masked characters ".....". Below the fields is a blue "LOGIN" button. At the bottom, there is a link "Sign Up" in blue text, preceded by the text "Don't you have account?".

2. API-endpoint logout

3. API-endpoint register

A screenshot of the Wanderlance 'Register Form'. The form is centered on a light gray background. It contains the following fields: 'Email' (pre-filled with 'test123@gmail.com'), 'Username' (pre-filled with 'test123'), 'Password' (masked with dots), and 'Confirm Password' (masked with dots). A blue 'REGISTER' button is at the bottom of the form. Below the button is a link: 'Already have account? [Sign In](#)'. The website's header is visible at the top, showing the 'Wanderlance' logo and navigation links.A screenshot of the Wanderlance 'Register Form' with all input fields empty. The fields are 'Email', 'Username', 'Password', and 'Confirm Password'. Below the 'Confirm Password' field, there is a red text message: 'Confirm your email address to complete the registration'. A blue 'REGISTER' button is at the bottom of the form. Below the button is a link: 'Already have account? [Sign In](#)'. The website's header is visible at the top.
